Variance Request - Medic Sleep Care - 3348 Main Street #300

I am requesting a variance for sign code Section 3.06 Signs in Commercial C-2 Districts. The code states that one facade sign is allowed per business. This sign shall not exceed two square feet for each one linear foot of building facade fronting a public street, and is to be mounted on the building wall. For businesses on corner lots, side walls facing public streets may have one additional façade sign subject to the same restrictions noted in this paragraph.

There was a mixup in our office where a previous version of the sign design was exported for production that wasn't the sign that was permitted. The sign size that was installed was 60" x 186" which comes out to 77.5 square feet. According to the ordinance the maximum square footage would be 60 square feet.

If signage allowance was calculated from actual sign area covered, the total square footage would be 58.6. We are not asking the variance committee to change the ordinance, just the method used to calculate the square footage. If the City of Bryant doesn't count the square footage as 58.6, then we are formally requesting a variance for a larger sign. Either of these would save our client from having to purchase a new sign.

The signage that was installed is not out of place for that shopping center. The swoosh part of the logo is what is causing the square footage to be higher because of the rectangle method of calculation.

In closing, if we can draw rectangles around the logo and the actual text, the signage would be in the allowable square footage. We are asking for the city's consideration of this calculation or a variance for the larger sign.

Thank you for your time and consideration.

RE: Review of Water and Wastewater Rates for 2022, internal review as per Ordinance 2021-6 and 2021-7

Dear Mayor Scott and City Council Members,

The first half of 2022 brought the City of Bryant an exceptional amount of rainfall. Wet seasons tend to reduce the consumption of water while increasing the amount of wastewater that has to be treated. The 2022 Budgets for Water and Wastewater were developed based on similar data from 2020 and 2021.

Considering typical seasonality projected 2022 revenues for water and wastewater are on track to meet the budgeted amounts at this time.

The 2023 Budget will be prepared basing the anticipated revenues and expenses on much the same usage and operating activities as in the 2022 budget. Exceptions are the increase in the cost of water purchased and the implementation of the water and wastewater rates increases for 2023.

Six months into 2022, and based on historical usage information, it appears that water and wastewater revenues will continue to support the 110% debt service requirement in the bond documents and provide adequate operational expenses. Please inquire of our offices if you have any further questions or concerns.

With Regards,

Tim Fournier, Public Works Director Joy Black, Finance Director
