

# TriStem Utility Audit for Bryant, Arkansas

---

## *Audit Update - October 2020*

### **1. Electric - Entergy Metered Accounts**

In our work, we found 1 Entergy account that is on a bigger rate than the others. We checked with Entergy, and it qualifies to move to the same rate as the other accounts, which should result in an annual savings of about \$278.

Customer Name	Account #	Service Address	Meter #
City of Bryant Public Safety Complex	60312634	312 Roya Ln	3207918

### **2. Electric - FEC Metered Accounts**

When reviewing the FEC accounts, we found account #1014860400 to have a low load factor, which can often indicate there are issues with the meter (#55532904).

City has confirmed that this is for the centrifuge building at the plant.

It is likely that the low load factor is due to the frequency of use of the pump. No actions need to be taken.

Customer Name	Account #	Service Address	Meter #
City of Bryant	1014860400	1019 S W 2nd St	55532904

### **3. Electric - Entergy Unmetered Accounts (Street Lights)**

We performed a virtual audit of the City's street lights billed by Entergy. There was a total of 1,094 lights. We identified 313 lights with possible billing or maintenance errors. With approval from the city will ask Entergy to repair and correct the billing on these lights. A spreadsheet of our findings is attached.

### **4. Electric - FEC Unmetered Accounts (Street Lights)**

In our audit of the FEC street lights we discovered 16 lights in a private subdivision that were being billed to the city. We notified the city and the city agreed that the lights should be removed from the bill and billed to the private subdivision. We need to know if

we should have FEC disconnect the lights, or notify the subdivision before disconnection. We have not been able to find a contact for the subdivision. If the City can assist with finding a contact at the subdivision, please advise.

Account #

1014089100 PROSPECT PARK SECURITY LIGHTS

16 100w HPS Muni-Coop Owns

## 5. Gas – CenterPoint

During the audit we identified one CenterPoint Gas account that had zero usage for the past 12 months. **Per Mark Grimmet this is for the water tower and will have to stay on.** No further actions need to be taken.

Account #	Address	Name	Meter #	Notes
10251068-2	6314 Highway 5 N	City of Bryant Admin	A13001424904	Zero usage for at least past 12 month

## Street Light Report Legend:

**Guardlight** – this means the light was found in a parking lot, not facing the street. Sometimes guardlights are billed differently than street lights so we notate that in our audits.

**Maintenance** – Something needs to be fixed on the light, it could be broken, cracked, or not working.

**No Street View** – we were not able to get to the light to verify it.

**Not Found** – we went to the location of the light and no light was there. It could be in a different area or it does not exist.

**Wrong Wattage** – the light we found was a different wattage than the utility company had on the inventory.

**Twin light** – the pole has 2 lights on it.
