RE: Conditional Use Permit Application

Good Day,

We are respectfully requesting approval of a Conditional Use Permit for a replacement covered building on our primary residence property. The previous covered deck has been completely removed, and the replacement structure for the most part, is in place. We have approximately \$23k in purchased building materials, an additional \$5k in roof structure that was built off site, and \$1800 in specialized labor (plumbing rough-in). I genuinely believed that replacing an existing structure would not be an issue...however, I am now painfully aware that a permit was needed.

The intended use will be as a pool house, and the location is contained within a fenced corner area of our backyard. There is no egress into any of the neighboring properties and access into our backyard is through a lockable front gate. There was an existing covered deck in the same location. This project started out being a repair to the existing structure by replacing rotten boards. Then this turned into a rebuild due to deterioration of the wood structure. The frame is 2" x 8" treated lumber on 6" x 6" treated posted cemented into ground at original post locations. The roof will be metal and match the house color for aesthetics. The walls will be non-structural in nature and would be installed between the 6" x 6" posts, outside painted to match house. This request includes provisions for a small half bathroom and electrical. There is existing electrical service to the building.

Thank You in Advance,

David L. Moulin
