RE: Cypress Valley Phase 2

Dear Colton:

On behalf of the property owner, Hope Consulting is requesting the review and approval of this waiver. Phase 1 of Cypress Valley was built in 2011. The three streets that connect into Phase 2 all have sidewalks at the back of curb on both sides of the street. That is 6 connections to the sidewalk at the back of curb. The topography in phase 2 is especially difficult which would make the sidewalks being placed 11 feet off the curb very challenging. We propose to continue with the same sidewalk location as the subdivision was originally designed.

Thank you for your time and consideration.

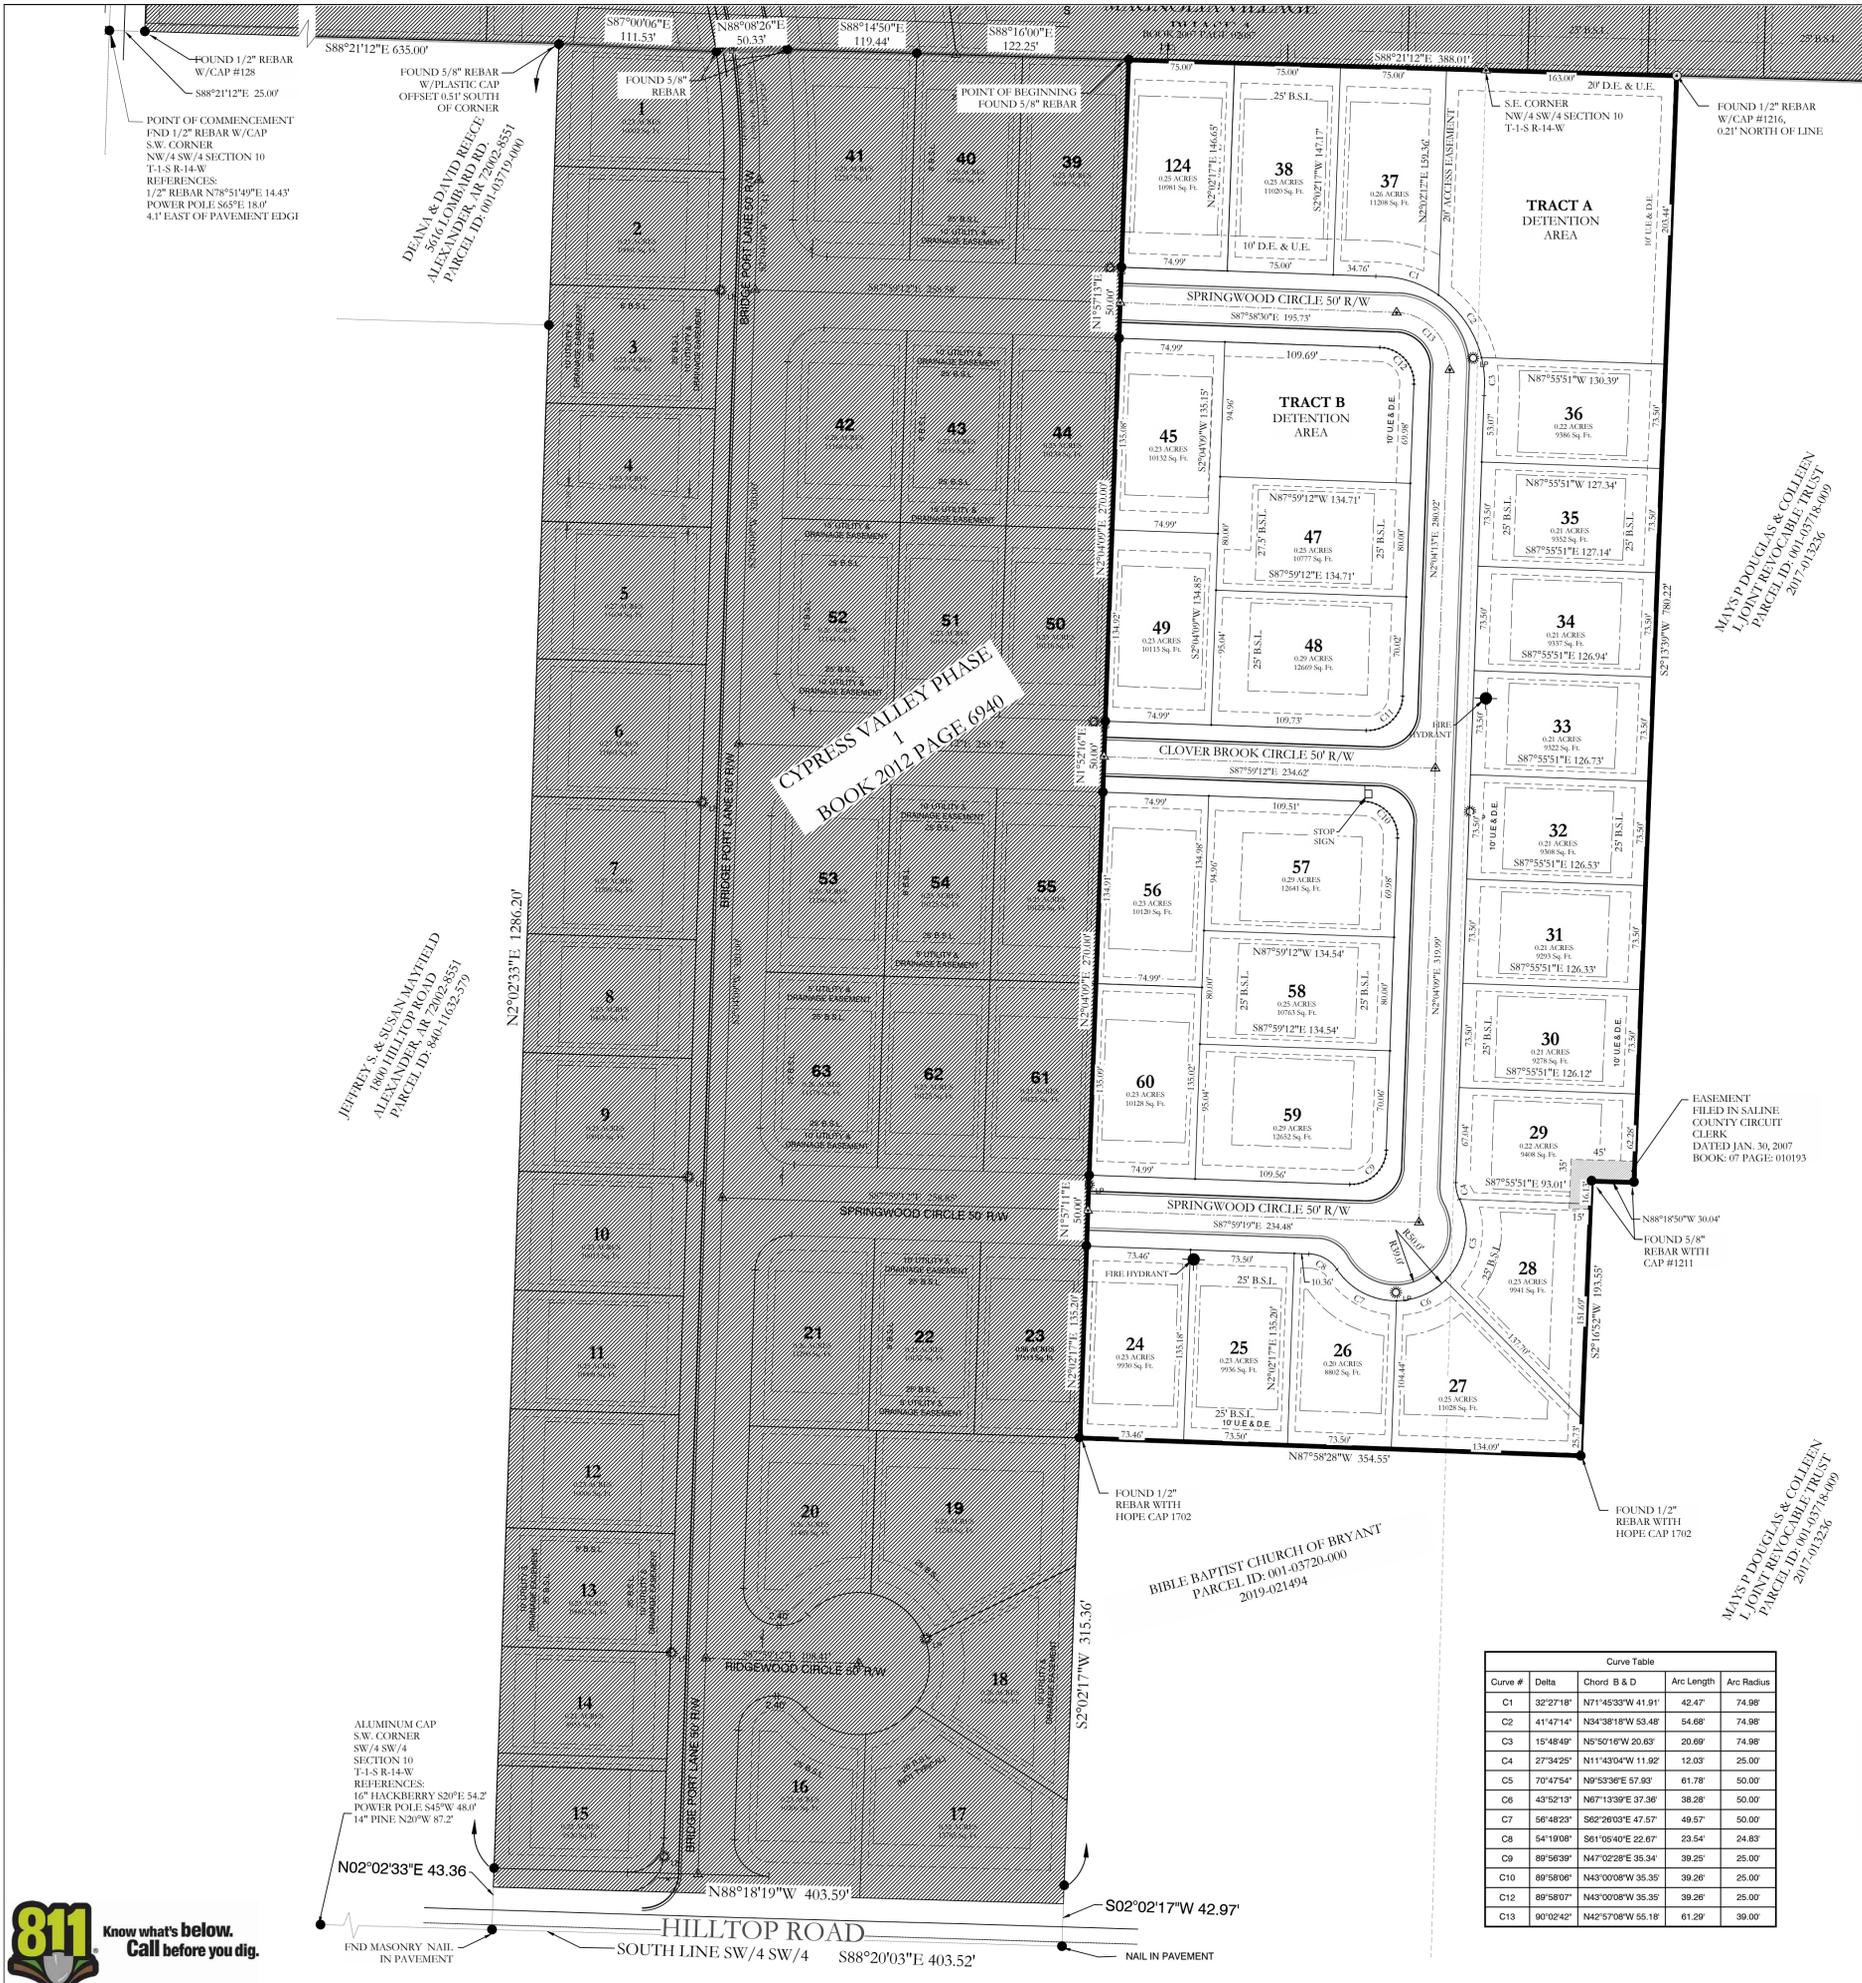

Please feel free to contact me with any questions or concerns or if I can be of any further assistance.

Sincerely,

Jonathan Hope

City of Bryant

In reference to our sign located at 23478 I-30. The sign there now is 10'x40' We are asking the city to allow us a variance to be 10'x30' 300 sq ft. It is our position the allowed 200 sq ft is simply to small for a effective highway sign. We are competing with the signs around us that are much larger than that. The sign located at Ashley next door is 400' sq ft.

We also have a side street running along the side of our property and would ask that square footage be figured with both frontage road and side road in mind.

Thank you,

Jimmy Parker
